A Magical Tour of the Night Sky: Use the Planets and Stars for Personal and Sacred Discovery Renna Shesso

"The sky was our original calendar, our original storybook, the first illustrated edition, the prototype GPS. Beyond its pragmatic usefulness, the sky was the domain of spirit, traversed by deities and a place to which human souls departed. Let's re-enchant it, shall we?"

Shamanic practitioner, priestess of the Craft, and author of *Math for Mystics* Renna Shesso invites readers along as she takes a pagan's look at the night sky.

A Magical Tour of the Night Sky: Use the Planets and Stars for Personal and Sacred Discovery draws on astronomy, Tarot, shamanism, astrology, Wicca, lore, legend, and history to interpret the movement of the night sky and re-awaken our spirits.

Included is a treasure trove of information about the North Star, the constellations of the zodiac (including Ophiuchus), the Sun, the Precession of the Equinoxes, the Moon, and the visible planets, plus nearly 150 illustrations, and appendixes that chart planetary motion from the present up to year 2050. Each chapter ends with practices to help us reconnect with our sacred selves. This is sky magic, shamanic star-gazing.
