God, Time, and Eternity: The Coherence of Theism II: Eternity (v. 2) W.L. Craig

In this highly original and ground-breaking work, the author brings together discussions in the philosophy of time and space, philosophy of language, phenomenology, philosophy of science, Special and General Relativity, classical cosmology, quantum mechanics, and so forth, with the concerns of philosophy of religion and theology, in order to craft a philosophically informed and scientifically tenable doctrine of divine eternity and God's relationship to time.
