Handbook of Green Chemistry, Green Solvents

Handbook of Green Chemistry, Green Solvents

A world where the emphasis has shifted to being as green and environmentally friendly as possible leads to the requirement of this important 3-book set of the *Handbook of Green Chemistry* edited by the father and pioneer of Green Chemistry, Professor Paul Anastas.

This series summarises the significant body of work that has accumulated over the past decade that details the breakthroughs, innovation and creativity within Green Chemistry and Engineering.

Set II comprises of 3 books, with each volume focussing on a different area and edited by leading scientists in the field:

Supercritical Solvents - Editors: W. Leitner and P. G. Jessop

Ionic Liquids - Editors: P. Wasserscheid and A. Stark

Reactions in Water - Editor: C.-J. Li

An essential collection for anyone wishing to gain an understanding of the world of green chemistry and for a variety of chemists, environmental agencies and chemical engineers.

The *Handbook of Green Chemistry* comprises of 9 volumes in total, split into 3 subject-specific sets. The three sets are available individually. All 9 volumes are available individually, too.

Set I: Green Catalysis

- Volume 1: Homogeneous Catalysis
- Volume 2: Heterogeneous Catalysis
- Volume 3: Biocatalysis

Set II: Green Solvents

- Volume 4: Supercritical Solvents
- Volume 5: Reactions in Water
- Volume 6: Ionic Liquids

Set III: Green Processes

- Volume 7: Green Synthesis
- Volume 8: Green Nanoscience
- Volume 9: Designing Safer Chemicals

The *Handbook of Green Chemistry* is also available as **Online Edition**.

Podcasts

Listen to two podcasts in which Professor Paul Anastas and Journals Editor Paul Trevorrow discuss the origin and expansion of Green Chemistry and give an overview of *The Handbook of Green Chemistry*.

From reader reviews:

Warren Matt:

This Handbook of Green Chemistry, Green Solvents are generally reliable for you who want to become a successful person, why. The key reason why of this Handbook of Green Chemistry, Green Solvents can be among the great books you must have is actually giving you more than just simple looking at food but feed a person with information that might be will shock your before knowledge. This book is definitely handy, you can bring it everywhere you go and whenever your conditions at e-book and printed kinds. Beside that this Handbook of Green Chemistry, Green Solvents forcing you to have an enormous of experience including rich vocabulary, giving you demo of critical thinking that we know it useful in your day task. So , let's have it and luxuriate in reading.

Phyllis Kelly:

Your reading sixth sense will not betray you, why because this Handbook of Green Chemistry, Green Solvents guide written by well-known writer whose to say well how to make book that could be understand by anyone who also read the book. Written inside good manner for you, leaking every ideas and producing skill only for eliminate your current hunger then you still uncertainty Handbook of Green Chemistry, Green Solvents as good book not simply by the cover but also with the content. This is one publication that can break don't ascertain book by its protect, so do you still needing a different sixth sense to pick this kind of!? Oh come on your studying sixth sense already told you so why you have to listening to yet another sixth sense.

Richard Hennessy:

As we know that book is significant thing to add our knowledge for everything. By a book we can know everything we really wish for. A book is a list of written, printed, illustrated as well as blank sheet. Every year ended up being exactly added. This book Handbook of Green Chemistry, Green Solvents was filled about science. Spend your extra time to add your knowledge about your research competence. Some people has diverse feel when they reading any book. If you know how big selling point of a book, you can sense enjoy to read a e-book. In the modern era like now, many ways to get book that you simply wanted.

Matthew Hansen:

Reading a publication make you to get more knowledge as a result. You can take knowledge and information from a book. Book is published or printed or created from each source this filled update of news. Within this modern era like currently, many ways to get information are available for an individual. From media social similar to newspaper, magazines, science e-book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you hip to spend your spare time to open your book? Or just in search of the Handbook of Green Chemistry, Green Solvents when you essential it?
