Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series Kuang-Hua Chang

Product Design Modeling using CAD/CAE is the third part of a four-part series. It is the first book to integrate discussion of computer design tools throughout the design process. Through this book, you will:

- Understand basic design principles and all digital design paradigms
- Understand computer-aided design, engineering, and manufacturing (CAD/CAE/CAM) tools available for various design-related tasks
- Understand how to put an integrated system together to conduct all-digital design (ADD)
- Provides a comprehensive and thorough coverage of essential elements for product modeling using the virtual engineering paradigm
- Covers CAD/CAE in product design, including solid modeling, mechanical assembly, parameterization, product data management, and data exchange in CAD
- Case studies and tutorial examples at the end of each chapter provide hands-on practice in implementing off-the-shelf computer design tools
- Provides two projects showing the use of Pro/ENGINEER and SolidWorks to implement concepts discussed in the book

From reader reviews:

Patricia Smith:

Now a day those who Living in the era where everything reachable by connect with the internet and the resources included can be true or not require people to be aware of each data they get. How many people to be smart in receiving any information nowadays? Of course the reply is reading a book. Studying a book can help folks out of this uncertainty Information especially this Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series book as this book offers you rich info and knowledge. Of course the data in this book hundred per cent guarantees there is no doubt in it you probably know this.

Matthew Wallace:

Do you have something that you prefer such as book? The guide lovers usually prefer to decide on book like comic, short story and the biggest some may be novel. Now, why not seeking Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series that give your enjoyment preference will be satisfied by reading this book. Reading practice all over the world can be said as the means for people to know world considerably better then how they react when it comes to the world. It can't be claimed constantly that reading behavior only for the geeky man or woman but for all of you who wants to end up being success person. So , for all of you who want to start reading as your good habit, you may pick Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series become your personal starter.

Stephanie Wilkes:

This Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series is brand-new way for you who has attention to look for some information given it relief your hunger of knowledge. Getting deeper you into it getting knowledge more you know or you who still having bit of digest in reading this Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series can be the light food for yourself because the information inside this kind of book is easy to get through anyone. These books produce itself in the form which is reachable by anyone, yeah I mean in the e-book contact form. People who think that in book form make them feel tired even dizzy this guide is the answer. So there is not any in reading a book especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss the item! Just read this e-book style for your better life as well as knowledge.

Jonathan Thurman:

That reserve can make you to feel relax. That book Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series was bright colored and of course has pictures around. As we know that book Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series has many kinds or category. Start from kids until youngsters. For example Naruto or Detective Conan you can read and feel that you are the character on there. Therefore not at all of book usually are make you bored,

any it makes you feel happy, fun and rest. Try to choose the best book for you and try to like reading this.
