Manual of Emergency Airway Management, now in its 4th edition, is a practical guide to emergency airway management in any adult or pediatric patient and offers step-by-step instructions on techniques, drug administration, and prevention and management of complications. The book may be used in conjunction with the Difficult Airway Course™, or on its own. The text has been reorganized to reflect the decision-making process of emergency care providers treating the patient in distress.

Features include:

- Completely reorganized chapters into cohesive sections
- Expanded discussion of videolaryngoscopes, including newer, low-cost alternatives
- More illustrations, with expanded “how to” descriptions
- Revised and updated airway algorithms
