Putnam and Beyond Razvan Gelca, Titu Andreescu

Putnam and Beyond takes the reader on a journey through the world of college mathematics, focusing on some of the most important concepts and results in the theories of polynomials, linear algebra, real analysis in one and several variables, differential equations, coordinate geometry, trigonometry, elementary number theory, combinatorics, and probability. Using the W.L. Putnam Mathematical Competition for undergraduates as an inspiring symbol to build an appropriate math background for graduate studies in pure or applied mathematics, the reader is eased into transitioning from problem-solving at the high school level to the university and beyond, that is, to mathematical research.

From reader reviews:

Bettina Cutler:

In this 21st millennium, people become competitive in each and every way. By being competitive currently, people have to do something to make all of them survive, being in the middle of typically the crowded place and notice by simply surrounding. One thing that at times many people have underestimated that for a while is reading. That's why, by reading a guide your ability to survive increases then having a chance to stand up than others is high. In your case who want to start reading the book, we give you this kind of Putnam and Beyond book as a starter and daily reading publication. Why, because this book is usually more than just a book.

Matthew White:

In this period of globalization it is important for someone to receive information. The information will make professionals understand the condition of the world. The healthiness of the world makes the information quicker to share. You can find a lot of personal references to get information, for example: internet, paper, book, and soon. You can observe that now, a lot of publishers that will print many kinds of books. Often the book that is recommended to you is Putnam and Beyond. This reserve consists a lot of the information of the condition of this world now. This specific book was represented how the world has grown up. The dialect styles that the writer uses to explain it are easy to understand. The particular writer made some exploration when he made this book. Honestly, that is why this book is suitable for all of you.

Darlene Lewis:

Many people spend their time period by playing outside, having friends, fun activities with family or just watching TV the whole day. You can have new activities to pass your whole day by looking at a book. Ugh, do you think reading a book will surely be hard because you have to use the book everywhere? It's alright, you can have the e-book, delivered everywhere you want in your cell phone. Like Putnam and Beyond which is finding the e-book version. So, why not try out this book? Let's observe.

John Rivera:

A lot of guides have been printed but it is unique. You can get it by net on social media. You can choose the most beneficial book for you, science, amusing, novel, or whatever by searching for it. It is referred to as the book Putnam and Beyond. You can add your knowledge by it. Without leaving behind the printed book, it can add your knowledge and make you happier to read. It is most important that, you must be aware about publication. It can bring you from one destination to another place.
