Cry Wolf: A Political Fable Paul Lake

Cry Wolf is an *Animal Farm* for the 21st century: a brilliant allegory of the political challenges we face in post-9/11 America. The farm animals' struggle to maintain their way of life against an influx of change is a powerful commentary on the importance of balancing freedom with justice, and on how easily even the best of intentions can destroy a community too caught up with what is "fair" to do what is right.

Lake's novel raises questions of in the heart of every devoted citizen: Does political correctness ever trump law? Should safety ever be compromised for the sake of inclusion? Are big government and judicial systems tools to create order, or do they provide chaos?
