## **Human Nature and De Corpore Politico (Oxford World's Classics) (Pt. 1) Thomas Hobbes**

Thomas Hobbes' timeless account of the human condition, first developed in *The Elements of Law* (1640), which comprises *Human Nature* and *De Corpore Politico*, is a direct product of the intellectual and political strife of the seventeenth century. His analysis of the war between the individual and the group lays out the essential strands of his moral and political philosophy later made famous in *Leviathan*. This first ever complete paperback edition of *Human Nature* and *De Corpore Politico* is also supplemented by chapters from Hobbes' later work *De Corpore* and "The Three Lives," never before published together in English.

**About the Series:** For over 100 years **Oxford World's Classics** has made available the broadest spectrum of literature from around the globe.
