The Oxford Handbook of Corpus Phonology (Oxford Handbooks in Linguistics)

The Oxford Handbook of Corpus Phonology (Oxford Handbooks in Linguistics)

This handbook presents the first systematic account of corpus phonology - the employment of corpora, especially purpose-built phonological corpora of spoken language, for studying speakers' and listeners' acquisition and knowledge of the sound system of their native languages and the principles underlying those systems. The field combines methods and theoretical approaches from phonology, both diachronic and synchronic, phonetics, corpus linguistics, speech technology, information technology and computer science, mathematics and statistics.

The book is divided into four parts: the first looks at the design, compilation, and use of phonological corpora, while the second looks at specific applications, including examples from French and Norwegian phonology, child phonological development, and second language acquisition. Part 3 looks at the tools and methods used, such as Praat and EXMARaLDA, and the final part examines a number of currently available phonological corpora in various languages, including LANCHART, LeaP, and IViE. It will appeal not only to those working with phonological corpora, but also to researchers and students of phonology and phonetics more generally, as well as to all those interested in language variation, dialectology, first and second language acquisition, and sociolinguistics.

Your knowledge can inspire different ones, make them reading a book.

Larry Cain:

Can you one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Make an effort to pick one book that you find out the inside because don't ascertain book by its cover may doesn't work is difficult job because you are scared that the inside maybe not because fantastic as in the outside seem likes. Maybe you answer might be The Oxford Handbook of Corpus Phonology (Oxford Handbooks in Linguistics) why because the great cover that make you consider about the content will not disappoint a person. The inside or content is fantastic as the outside or cover. Your reading 6th sense will directly make suggestions to pick up this book.

Brian Robinson:

As a university student exactly feel bored for you to reading. If their teacher asked them to go to the library or to make summary for some guide, they are complained. Just tiny students that has reading's heart or real their interest. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that studying is not important, boring along with can't see colorful images on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this The Oxford Handbook of Corpus Phonology (Oxford Handbooks in Linguistics) can

make you experience more interested to read.
