## **Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines** Jr. Robert F. Kennedy

Over a decade ago, following a sharp rise in developmental disorders such as autism and ADHD, the mercury-containing preservative Thimerosal was widely believed to have been eliminated from vaccine supplies in the US and abroad. However, dangerous quantities of Thimerosal continue to be used, posing a significant threat to public health and leading to a crisis of faith in vaccine safety.

In this groundbreaking book, Robert F. Kennedy, Jr., and Dr. Mark Hyman examine the research literature on Thimerosal and make a very clear statement about its potentially dangerous effects. In the past, the CDC, FDA, NIH, and AAP, as well as the US Congress, the American Academy of Family Physicians, the US Department of Agriculture, the European Medicines Agency, and the California Environmental Protection Agency have expressed concerns over the use of Thimerosal in vaccines. But despite the many voices calling for action, the media and policy makers have repeatedly failed to adequately address the issue.

Now, with *Thimerosal: Let the Science Speak*, the goals are to educate parents, doctors, and health policy makers; to eliminate this toxic chemical from the world's vaccine supplies; to move toward safer alternatives; and to maintain or increase vaccination rates critical to the United States and developing nations. With safer options available, parents shouldn't have to worry about the devastating effects of vaccinating their children.

### **From reader reviews:**

#### **George Finch:**

This book untitled Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines to be one of several books that best seller in this year, that is because when you read this publication you can get a lot of benefit upon it. You will easily to buy this particular book in the book shop or you can order it via online. The publisher of this book sells the e-book too. It makes you more easily to read this book, because you can read this book in your Mobile phone. So there is no reason to your account to past this publication from your list.

#### **Frank Johnson:**

The actual book Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines will bring that you the new experience of reading any book. The author style to spell out the idea is very unique. In case you try to find new book you just read, this book very suitable to you. The book Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines is much recommended to you you just read. You can also get the e-book from official web site, so you can easier to read the book.

#### **Kathleen Strickland:**

Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines can be one of your nice books that are good idea. We all recommend that straight away because this book has good vocabulary which could increase your knowledge in language, easy to understand, bit entertaining but still delivering the information. The article author giving his/her effort to get every word into enjoyment arrangement in writing Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines yet doesn't forget the main stage, giving the reader the hottest and based confirm resource data that maybe you can be one among it. This great information can drawn you into fresh stage of crucial thinking.

#### **Hazel Mercado:**

Don't be worry for anyone who is afraid that this book can filled the space in your house, you can have it in e-book way, more simple and reachable. This kind of Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines can give you a lot of close friends because by you looking at this one book you have thing that they don't and make anyone more like an interesting person. This book can be one of a step for you to get success. This book offer you information that possibly your friend doesn't recognize, by knowing more than some other make you to be great men and women. So , why hesitate? We should have Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines.
