## The Book and the Body (Ward-Phillips Lectures in English Language and Literature, 14.)

One of the most exciting developments in recent literary studies bases interpretation on a new understanding of bodily aspects of text. The method employed here views the body as a text to be read. Though the approaches of these essays are widely varied, three concerns figure and refigure themselves throughout the book: the gendered body and the copied book as locus of pain, pleasure, and desire. They will be of immense interest to medievalists and other scholars of language, philosophy, history, art history, and gender studies.
