The Forever Born (Chronicles of the Guardian Planet Book 1) Christina Horton

In The Forever Born you will read how the archangels chose to be born among mankind and the necessity to be born to human parents so as to descend to the earth unnoticed by Satan and his legions. Ariel is the catalyst. At her arrival, we are given a glimpse of how the arrival of a heavenly being could disrupt the ordinary lives of human parents. We experience their fear and confusion and also their acceptance, as the "Thy will be done" theme once again is repeated as it has throughout history.

Ariel and the other eleven archangels have a task here on earth. They must retrieve the twelve gemstones that had originally been set in the Breastplate of Aaron for Mikael (St. Michael) to wear during the final battle with Satan. It has been written that Christ and Satan made an agreement that each would have one thousand years of dominion over earth.

Now at the change of the millennium, it is time for Christ to once again take dominance. But Satan refuses to give up his hold here on earth. From the beginning Satan knew he would not fulfill his part of the bargain, so he stole the gemstones and hid them to prevent its use in battle. They are hidden in time and space. The reader will be taken to underwater caves, portals to other worlds and times, and more. There are physical battles between the dark and light angels where angelic lives are often lost in the fight for the gemstones.

The Forever Born is an epic tale, which will guide the reader through the joy and sorrow, fear and pain, as light and dark battle. Besides being an instrument of hope in these confusing times we live in, this book will give the reader a sense of satisfaction as righteous justice is meted out in the same manner as the crime committed. We will finally have our heroes.
