Battleground: Science and Technology [2 volumes] (Battleground Series)

Battleground: Science and Technology [2 volumes] (Battleground Series)

The modern world is filled with debate and controversy, and science and technology?the most characteristic features of the modern world?are not immune. Science and technology are implicated in many if not all of the issues, troubles, and problems students are likely to come across in their classes and in their everyday lives. Science and technology serve as a primary pathway to understanding front page headlines on everything from war to AIDS, and from oil exploration to global warming. *Battleground: Science and Technology* examines the most hot-button issues involving science and technology and provides a balanced assessment of the arguments on all sides of the often strident debates.

The approximately 100 issues examined in *Battleground: Science and Technology* include topics in the brain sciences, including the controversies over the cause of autism and the reliability of memory, as well as the debates over parapsychology; debates surrounding information technology, such as only privacy, the impact of video games on social behavior, and the advent of virtual reality; the complexity over drugs and medications, such as the testing of the efficacy of medications, the war on recreational drugs, and the costs of pharmaceutical research; and hot-button topics that are constantly in the news, such as evolution and creationism, DNA testing, stem-cell research, and genetically modified organisms.

Each entry provides a list of accessible resources useful for further research.

From reader reviews:

Alyson Hardy:

Reading a publication tends to be new life style within this era globalization. With reading you can get a lot of information that could give you benefit in your life. With book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. Many author can inspire all their reader with their story or maybe their experience. Not only the storyplot that share in the ebooks. But also they write about the ability about something that you need instance. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors on this planet always try to improve their proficiency in writing, they also doing some analysis before they write to the book. One of them is this Battleground: Science and Technology [2 volumes] (Battleground Series).

Peter Cox:

Playing with family in the park, coming to see the coastal world or hanging out with good friends is thing that usually you may have done when you have spare time, then why you don't try factor that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Battleground: Science and Technology [2 volumes] (Battleground Series), you can enjoy both. It is fine combination right, you still need to miss it? What kind of hang type is it? Oh come on its mind hangout fellas. What? Still don't get it, oh come on its referred to as reading friends.

Lillian Tobias:

That reserve can make you to feel relax. This particular book Battleground: Science and Technology [2 volumes] (Battleground Series) was colourful and of course has pictures on the website. As we know that book Battleground: Science and Technology [2 volumes] (Battleground Series) has many kinds or type. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and feel that you are the character on there. So , not at all of book usually are make you bored, any it makes you feel happy, fun and loosen up. Try to choose the best book for you and try to like reading that will.

John Jeanbaptiste:

Some individuals said that they feel weary when they reading a book. They are directly felt it when they get a half elements of the book. You can choose often the book Battleground: Science and Technology [2 volumes] (Battleground Series) to make your own reading is interesting. Your current skill of reading talent is developing when you such as reading. Try to choose straightforward book to make you enjoy you just read it and mingle the sensation about book and looking at especially. It is to be initially opinion for you to like to open up a book and read it. Beside that the guide Battleground: Science and Technology [2 volumes] (Battleground Series) can to be a newly purchased friend when you're feel alone and confuse using what must you're doing of the time.
